DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Jensen, Reg. No. 42,693 on 5 November 2003. The application has been amended as follows:

In the claims:

Claims 14-18 have been cancelled.

Claims 19-28 have been cancelled.

End of Examiner's Amendment.

Election/Restrictions

2. This application is in condition for allowance except for the presence of claims 19-28 to an invention non-elected without traverse. Accordingly, claims 19-28 have been cancelled.

Allowable Subject Matter

3. Claims 1-10, 12, and 13 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The closest prior art (as discussed in the previous Office Action) is *Kim '970*.

Claim 1 has been amended to recite the additional limitation (of the previous claim 11, indicated as allowable) that the second conductive layer (including the data line) is formed of ITO, IZO, or IPbO. *Kim '970* discloses making the second conductive layer of a metal [col. 4, line 10] and discusses that the resistance of the data line may be too large [col. 5, lines 45-50]. It would therefore not be an obvious modification to one of ordinary skill in the art to replace the metal with ITO, IZO, or IPbO, which have higher resistances than the metals (such as those listed in claim 6) which *Kim '970* would be using for the data line. Claim 1 is therefore allowed, as are its dependent claims, 2-10, 12, and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
